Full Stack Engineer and woman in tech who knows how to take charge while building fun, real world web applications. Web developer skilled in Full-Stack, DevOps, team management, responsive design, accessibility, and database management in fully remote, team environments. Ability to create advanced state managed apps and CRUD functional servers after learning code in immersive environment. Ready to implement foundational knowledge gained from studying at Lambda School into a collaborative full product life-cycle, with a real world product. Works well independently or in team environments, with a desire to collaborate cross-functionally.

Skills

FULL STACK
Javascript ES6
ReactJS
Redux
SASS/LESS
NodeJS
ExpressJS
KnexJS

Auth0
RESTful API's
Responsive Styling
Accessibility
Google Maps API
AWS
PHP
.NET
C#

Go Have Fun - Team Lead and Developer
Stack: React, Auth0, Google Analytics & Map APIs, NodeJS, PostgreSQL, Heroku
- Greenfield project to build an application to find local events posted by users with React, Node/Express/Knex, Google Analytics and Maps API and PostgreSQL database.
- Assisted and helped design the PostgreSQL database and NodeJS server.
- Assisted with debugging and testing of code from teammates to ensure proper integration and scope with product engineers.
- Led a 4 person team utilizing Trello, Notion, Slack, Zoom, and GitHub to keep team in sync and moving at a fast pace.
- Maintained project scope by guiding feature canvas and product cycle planning.
- Architect of backend database and frontend google maps integration with a focus on compartmentalization and organization.

Card Boss - Front End Developer
- UI and Front-End designer for a concept site for a business card qr scanner.
- Built out front end with ReactJs.
- Designed and edited page content and layout.

Lambda Flash Cards - Team Lead and Developer
- Designed and built out a hackathon project in 48 hours.
- Assisted with code debugging and testing for flash cards and database calls.
- Built front end with React JS and assisted with back end implementation.

Employment

Lambda School
Section Lead - Labs DevOps

Remote
Nov. 2019 to Current

• Guide and train team leads and their teams of 5-15 student developers to create impressive and successful software applications.
• Actively participate in peer reviews, debugging and testing to ensure quality of both the software products and related documentation.
• Adhere and monitor project requirements with regard to both schedule & completion milestones to ensure the success of the project.
• Assisted with code organization, testing and debugging for multiple team projects at one time.
• Attend daily management meetings to address concerns and any hindrances to ensure healthy product completion times for student dev teams.

Lambda School
Team Lead - Web Teaching Assistant

Remote
July 2019 to Dec. 2019

• Assisted the instruction team by reviewing and testing code, consulting with students, providing regular assessment of student progress, and provide opportunities for students to enhance their technical skills.
• Completed and submitted daily attendance reports, module 1:1s and project reviews for every student.
• Participated in weekly TL All Hands meetings and daily TL stand-up meetings.
• Worked with students/TLs/SLs to create an environment that promotes professionalism, technical skill development, personal responsibility, and community accountability.
• Coordinated support for students via Student Success escalation process and keep supervisors informed about student problems and concerns.

Lily Chic Boutique
Web Manager

Remote
Aug. 2016 to Mar. 2017

• Maintained a fully functional Shopify e-commerce website including design, hosting, inventory, sales, financials, invoicing and organizing.
•Managed social media marketing and promotion.
